

ARCHANA SATHIYA SEELAN

Software Development Engineer

+91 8105294487 | archanaseelan26@gmail.com | [Bangalore, India](#) | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Tailwind CSS, shadcn/ui, Vite, Responsive UI Design.

Backend Development: Node.js, Express.js, Python, C/C++, RESTful APIs, JWT Authentication, JSON, jQuery, Socket.io, Webhooks.

Database & Storage: SQL, MySQL, MongoDB, PostgreSQL, Complex Querying, Database Schema Design.

DevOps & Deployment: Git, GitHub, Docker, Postman, CI/CD Pipelines, AWS, Vercel, Render, VS Code, npm, Agile Methodology.

Core CS Concepts: DSA, OOPs Concepts, Operating Systems, Computer Networks, AI & Machine Learning, DBMS.

AI & Developer Tools: ChatGPT, Gemini, Antigravity, Claude Code, GitHub Copilot, Prompt Engineering.

KEY PROJECTS

AI SEO Rank Tracker | *React.js, Node.js, Express.js, MongoDB, Vercel, REST APIs, Git/GitHub, Browserbase*

- Architected a modern AI-powered SEO optimization platform enabling users to perform automated site audits and keyword ranking analysis.
- Engineered real-time ranking history monitoring with interactive analytics and automated AI-driven SEO recommendation reports.
- Deployed performant full-stack architecture on Vercel backed by scalable MongoDB database indexing for fast query execution.

Multi-Agent AI Code Editor | *MERN Stack, Redis, LangGraph, Microservices, Firebase Auth, Docker, AWS, Razorpay*

- Developed a scalable full-stack multi-agent AI code editor powered by LangGraph agent workflows, Node.js microservices architecture, and MongoDB for real-time code generation and automated project management.
- Engineered high-throughput real-time collaboration workflows using Socket.IO and Redis caching for low-latency session management and fast data operations.
- Containerized microservices with Docker & Docker Compose for production cloud deployment on AWS, and integrated Razorpay payment gateway for automated multi-tier subscriptions.

E-Commerce SaaS Platform | *PostgreSQL, Express.js, React.js, Node.js, TypeScript, Clerk, Socket.io, Polar, Docker*

- Built and deployed a multi-tenant full-stack E-Commerce SaaS platform integrated with Clerk Authentication and Polar payment processing.
- Implemented real-time customer support chat and video calling infrastructure utilizing Socket.io WebSocket connections.
- Designed an administrative dashboard providing inventory management, webhook event handling, and real-time sales telemetry.

Webchat Instant Messaging App | *MERN Stack, Socket.io, Clerk, Render, Webhooks, Cronjobs, ImageKit.io*

- Engineered a high-concurrency real-time instant messaging application utilizing Node.js WebSocket servers and Clerk OAuth authentication.
- Integrated media storage pipeline using ImageKit.io supporting high-speed image, audio, and video media file sharing.
- Implemented custom application themes, dark/light mode toggles, custom chat wallpapers, and background Cronjobs cleanups.

EDUCATION

Master of Computer Applications (MCA)

Karnataka State Open University

Jul 2023 – Nov 2025

CGPA: 8.3 / 10

Bachelor of Science in Computer Science (B.Sc.)

Government First Grade College / Bangalore University

Jun 2016 – Sep 2020

CGPA: 7.3 / 10

CERTIFICATIONS & ACHIEVEMENTS

- 100+ Data Structures & Algorithms Problems Solved – Leetcode
- Full Stack Web Development Certification – Microsoft & LinkedIn
- Python & Intermediate Machine Learning Certification – Kaggle
